Now say your name
Says the program to the girl as she makes her way through the maze
There's no way out, indeed there's not
They keep on watching every step I take
And laugh as I simply go insane

And paint a pretty picture on the wall
While the white men write their words and every thought
You'd think it's freedom but they keep you all tied up and in a chair
Eyes glued to the pixels on the screen

Listen as they whisper thoughts to you

Listen closely
Pay attention
You can't hear them
Oh, how I can

Na na na na
Hey!
Na na na na
Na na na na
Hey!
Na na na na

Step one:
Seat your patient in the testing area

Step two:
Plug your patient to the program
Make sure datas fully downloaded
Press begin

Now say your name
As I stare with hollow eyes at the monochrome area
"My name's not here!"
But before my eyes, a font of lies;
"Soon you'll feel all better!"

Listen closely
Pay attention
You can't hear them
Oh, how I can
Wired singing
This is my world
So such system
You can't cure us

Na na na na
Na na na na
Na na na na

Na na na na

Turn three-sixty
Color distortion
You can't see it
Oh, how I can

Na na na na
Hey!
Na na na na
Na na na na
Hey!
Na na na na
